FEDERAL COMMUNICATIONS COMMISSION
COMMUNICATIONS DIVISION

In the Matter of)
)
Amendment of Section 73.202(b),) MM Docket No. 94-113
Table of Allotments) RM-8514
FM Broadcast Stations)
(Cape Girardeau, Missouri))

To: Chief, Allocations Branch

REPLY COMMENTS OF KEVIN G. GREASER

Kevin G. Greaser (hereafter "Greaser"), by his counsel, hereby submits these reply comments to the COUNTERPROPOSAL of Scott City Broadcasters (hereafter "Scott"), the COMMENTS AND COUNTERPROPOSAL of Stephen W. Sikes (hereafter "Sikes") and the COUNTERPROPOSAL by Twin States Broadcasting, Inc. (hereafter "Twin"). In support of its proposal in this proceeding, Greaser submits the following.

1. Scott proposes the allocation of FM Channel 230A at Scott City, Missouri. Scott City is located approximately eight miles south of Cape Girardeau, Missouri, the community to which Greaser has requested the allotment of FM Channel 230A. Greaser continues to submit that the allotment of Channel 230A at Cape Girardeau is preferable for the reasons noted in his "Petition For Rule Making" and "Comments of Kevin G. Greaser". In the event the Commission were to allocate the FM Channel 230A to Scott City, Greaser would submit an application for that allocation and promptly build a station in the event he were granted a construction permit.

List A B C D E

2. Sikes proposes to allocate FM Channel 229A at Miner, Missouri. This allotment would apparently preclude the FM Channel 230A allocation to Cape Girardeau proposed by Greaser. Greaser does not believe that Sikes has shown Miner, Missouri to be anything but a "quite village" that is ineligible for an FM allotment under established Commission precedent. Accordingly, Greaser believes that the proposed Miner, Missouri allotment should be rejected by the Commission. In the alternative, the Commission should review its database to ascertain whether an alternative allotment is available for Miner, Missouri.

3. Twin proposes to change the existing FM Channel 284A allotment at Chaffee, Missouri to FM Channel 230A in order to allow it to up-grade the facilities of WKWT(FM), Union City, Tennessee, from FM Channel 285A to 284C2. The Twin proposal should also be rejected. Greaser is requesting a new FM channel allocation that will provide an additional FM broadcast service. Twin's proposal will not result in a new broadcast service, but will merely allow Twin to expand the service area for its existing station. Greaser submits that the public interest warrants the allocation of a new service over merely increasing the coverage area for an existing station.

Wherefore, based on the foregoing, Greaser reaffirms his support for the allocation of FM Channel 230A at Cape Girardeau, Missouri. In the alternative, he would apply for, and build, an FM station on Channel 230A in the event this channel were allocated to Scott City, Missouri.

Respectfully submitted,

Kevin G. Greaser
